DETAILED ACTION

Allowable Subject Matter

Claims 1-18 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art discloses a portable data storage device with a printed circuit board and connector mounted in a housing, US patents 5726867 Zarreii and 6456500 Chen, but does not show or suggest that in the claimed combination, the circuit board is mounted in the housing by use of wings and engaging portions on the tail end of the circuit board that engage with ribs at position holes in the housing and that a stepped frame provided with engaging hooks on an upper inner wall of the housing is used to mount the connector. US Patent Application 10/506719 Sugawara, discloses a portable data storage device with a printed circuit board and connector mounted in a housing where the circuit board is mounted through use of wings and engaging portions on the circuit board but was published on July 21, 2005 and therefore Sugawara does not qualify as prior art. Furthermore there is no evidence in the prior art suggesting that mounting a circuit board and connector in a housing as claimed would be obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
